

**College of Education and Human Development
Division of Special Education and disAbility Research**

Fall 2018

EDSE 502 DL2: Classroom Management and Applied Behavior Analysis

CRN: 72371, 3 – Credits

Instructor: Dr. Andrea Boykin	Meeting Dates: 8/27/2018 – 12/19/2018
Phone: (757) 985-2702	Meeting Day(s): Net
E-Mail: aboykin2@gmu.edu	Meeting Time(s): Net
Office Hours: By appointment	Meeting Location: On-line
Office Location: TBD	Other Phone: N/A

*Note: This syllabus may change according to class needs. Teacher Candidates/Students will be advised of any changes immediately through George Mason e-mail and/or through Blackboard.

Prerequisite(s): None

Co-requisite(s): None

Course Description

Focuses on identifying, recording, evaluating, and changing social and academic behaviors of special and diverse populations. Explores theories of classroom management and various approaches to management including use of technological advances. Emphasizes developing classroom and individual behavior management plans. Note: Field experience required. Offered by Graduate School of Education. May not be repeated for credit.

Advising Contact Information

Please make sure that you are being advised on a regular basis as to your status and progress through your program. Mason M.Ed. and Certificate teacher candidates/students should contact the Special Education Advising Office at (703) 993-3670 for assistance. All other teacher candidates/students should refer to their faculty advisor.

Advising Tip

Do you need to take Praxis Core and/or VCLA? For students pursuing a special education teacher licensure program, the Praxis Core or a VDOE-approved substitute test should be submitted to Mason as soon as possible. Tests should be taken as early as possible since most scores must be on file when students apply for internship. Check your program plan or talk with your advisor if you are unsure what tests you need or when you will need to take them.

Course Delivery Method

Learning activities include the following:

1. Class lecture and discussion
2. Application activities
3. Small group activities and assignments
4. Video and other media supports
5. Research and presentation activities
6. Electronic supplements and activities via Blackboard

This course will be delivered online using asynchronous format via the Blackboard learning management system (LMS) housed in the MyMason portal. You will log in to the Blackboard course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available on 12:01 a.m. on August 27, 2018.

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

Technical Requirements

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard's supported browsers see:
https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#supported-browsers
To get a list of supported operation systems on different devices see:
https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#tested-devices-and-operating-systems
- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download:
 - Adobe Acrobat Reader: <https://get.adobe.com/reader/>
 - Windows Media Player:
<https://support.microsoft.com/en-us/help/14209/get-windows-media-player>
 - Apple Quick Time Player: www.apple.com/quicktime/download/

Expectations

- Course Week:
Because asynchronous courses do not have a “fixed” meeting day, our week will start on Tuesday at 12:01 am and finish on Monday at 11:59 pm.
- Log-in Frequency:
Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least 3 times per week.
- Participation:
Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.
- Technical Competence:
Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- Technical Issues:
Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.
- Workload:
Please be aware that this course is **not** self-paced. Students are expected to meet *specific deadlines* and *due dates* listed in the **Class Schedule** section of this syllabus. It is the student’s responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.
- Instructor Support:
Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.
- Netiquette:
The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.
- Accommodations:
Online learners who require effective accommodations to insure accessibility must be registered with George Mason University Disability Services.

Learner Outcomes

Upon completion of this course, teacher candidates/students will be able to:

1. Define behavior change terminology and principles of applied behavior analysis.
2. Given characteristics and behaviors of students with disabilities, identify ways to acquire indirect and direct assessments to identify corresponding antecedents and consequences of the behavior/s as well as the behavior's function (i.e., Functional Behavior Assessment).
3. Based on information from a Functional Behavior Assessment, design a comprehensive behavior change program, and describe how school teams collaborate for the functional behavior assessment and behavior change program.
4. Design behavior management techniques for making positive changes in students' academic, social, and/or affective behavior, including ethical use of a continuum of techniques, starting with proactive, preventative, and least intrusive techniques.
5. Describe how to determine reinforcers and use varied schedules of reinforcement responsive to the needs of individual students.
6. Write accurate behavioral objectives for a wide range of behaviors that include all components: learner, conditions, observable behavior, and degree/criteria statements.
7. Describe data collection procedures that match observable behaviors and how to use data to make decisions about the effectiveness of interventions.
8. Describe how to develop and use single subject research designs.
9. Explain when and how to use maintenance and generalization techniques.
10. Design learning environments that support and enhance instruction.
11. Describe how to create a safe, positive, supportive environment which values diversity.
12. Demonstrate knowledge of modifying the learning environment (e.g., schedule, physical arrangement, routines) to prevent and manage inappropriate behaviors.
13. Describe strategies for promoting self-management.
14. Describe components of the SchoolWide Positive Behavior Intervention Support (SW-PBIS) model.
15. Given a school's discipline model, identify what distinguishes that model from the SW-PBIS model, and provide recommendations to align the school's model with SW-PBIS.
16. Describe parsimonious and comprehensive classroom management methods.
17. Describe how to identify and teach social skills needed for educational and other environments.
18. Describe ethical considerations when selecting behavior management methods, including a rationale for selecting positive reinforcement procedures over other procedures, conditions under which punishment-based procedures would be appropriate, and teacher attitudes and behaviors which can positively or negatively influence student behavior.
19. Identify and describe the crisis cycle and methods for crisis prevention.
20. Identify crisis intervention training programs (i.e., leads to certification as crisis management specialist).

Course Relationship to Program Goals and Professional Organizations

This course is part of the George Mason University, Graduate School of Education (GSE), Special Education Program for teacher licensure in the Commonwealth of Virginia in the special education areas of Special Education: Students with Disabilities who Access the General

Curriculum K-12. This program complies with the standards for teacher licensure established by the Council for Exceptional Children (CEC), the major special education professional organization, as well as those established by the Interstate Teacher Assessment and Support consortium (InTASC). The standards addressed in this class include CEC Standard 1: Learner development and individual learning differences (InTASC 1,2); CEC Standard 2: Learning environments (InTASC 3); CEC Standard 4: Assessment (InTASC 6); CEC Standard 5: Instructional planning and strategies (InTASC 7,8); CEC Standard 6: Professional learning and ethical practice (InTASC 9) & CEC Standard 7: Collaboration (InTASC 10).

Evidence-Based Practices

This course will incorporate the evidence-based practices (EBPs) relevant to developing safe, effective learning environments, positive behavioral interventions and supports, and functional behavioral assessments/behavioral plans. Evidence for the selected research-based practices is informed by meta-analysis, literature reviews/synthesis, the technical assistance networks which provide web-based resources, and the national organizations whose mission is to support students with disabilities. We address both promising and emerging practices in the field of special education. This course will provide opportunities for teacher/candidates/students to take an active, decision-making role to thoughtfully select, modify, apply, and evaluate EBPs in order to improve outcomes for students with disabilities.

Required Textbooks

Alberto, P. A., & Troutman, A. C. (2017*). *Applied behavior analysis for teachers* (9th ed.). Upper Saddle River, NJ: Pearson.

Scheuermann, B. K., & Hall, J. A. (2016*). *Positive behavioral supports for the classroom* (3rd ed.). Upper Saddle River, NJ: Pearson.

Recommended Textbooks

American Psychological Association. (2010). *Publication manual of the American Psychological Association* (6th ed.). Washington, DC: Author.

Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, Tk20, hard copy).

Tk20 Performance-Based Assessment Submission Requirement

It is critical for the special education program to collect data on how our students are meeting accreditation standards. Every teacher candidate/student registered for an EDSE course with a required Performance-based Assessment (PBA) is required to upload the PBA to Tk20 (regardless of whether a course is an elective, a one-time course or part of an undergraduate minor). A PBA is a specific assignment, presentation, or project that best demonstrates one or more CEC, InTASC or other standard connected to the course. A PBA is evaluated in two ways. The first is for a grade, based on the instructor's grading rubric. The second is for program accreditation purposes. Your instructor will provide directions as to how to upload the PBA to Tk20.

For EDSE 502, the required PBA is Functional Behavior Assessment and Behavior Intervention Plan. Failure to submit the assignment to Tk20 will result in reporting the course grade as Incomplete (IN). Teacher candidates/students have until five days prior to the University-stated grade change deadline to upload the required PBA in order to change the course grade. When the PBA is uploaded, the teacher candidate/student is required to notify the instructor so that the “IN” can be changed to a grade. If the required PBA is not uploaded five days prior to the University-stated grade change deadline and, therefore, the grade not changed, it will become an F. Please check to verify your ability to upload items to Tk20 before the PBA due date.

Assignments and/or Examinations

Performance-based Assessment (Tk20 submission required)

For the FBA and BIP project, you will select a learner with mild-moderate exceptional learning needs who also demonstrates problem behavior(s).

1. Functional Behavioral Assessment (75 points)

In an effort to identify the function of problem behavior(s) of a particular student, you will gather information about this student and his/her behavior. More information about this assignment (including a grading rubric and resources) can be found on Blackboard.

2. Behavior Intervention Plan (75 points)

Based on the information you gathered in the FBA and the hypothesis you have made about the function of the problem behavior(s), you will write a Behavior Intervention Plan. More information about this assignment (including a grading rubric and resources) can be found on Blackboard.

**Students will not receive a final grade in the course until all requirements have been met for uploading these assignments to the designated Tk20 site through Blackboard.*

College Wide Common Assessment (TK20 submission required)

N/A

Performance-based Common Assignments (No Tk20 submission required)

3. Comparison of School Discipline/Behavior Plans (20 points)

For this assignment, you will obtain the discipline plan from a school. Consider the “plan” as the document provided to parents, students, and teachers at the beginning

of the school year. The school's rules, approach to reinforcing and enforcing rules, consequences for infractions, and other relevant information is described in this document. Most schools have these documents available for parents and students on the school web site. Avoid accessing the school system's handbook. Because you will be comparing a school's procedures to the School Wide Positive Behavior Intervention Supports, a school plan is needed.

4. Classroom Management Plan (60 points)

The purpose of this project is to develop a comprehensive classroom management plan that involves preventative planning and instructional management strategies to support the academic and behavioral needs of a diverse classroom. Components of the classroom management plan include a self-assessment, environmental engineering, assessment of active student engagement, continuum of consequences, and behavior management philosophy. You may report on your own classroom management features. However, if you are not currently teaching in a school setting, you may observe a general education co-taught setting (must be classroom where students with disabilities are educated). More information about this assignment (including a grading rubric) can be found on Blackboard and should be reviewed prior to beginning the assignment.

Field Experience Requirement

A field experience is a part of this course. A field experience includes a variety of early and ongoing field-based opportunities in which candidates may observe, assist, and/or tutor. Field experiences may occur in off-campus settings, such as schools (CAEP, 2016). Below are **REQUIRED PROCEDURES FOR ALL STUDENTS ENROLLED IN THIS COURSE.**

Complete the online EDSE Field Experience form. This online form will be sent to your GMU email from EDSEfld@gmu.edu on the first day of the semester. Click on the link and complete the form as soon as possible. **ALL** students should complete the form, regardless of whether you need assistance in locating a field experience placement or not. This information is required by the state. Please direct any questions about the form to Dr. Kristen O'Brien at EDSEfld@gmu.edu.

If you are arranging your own field experience because you are a full-time contracted school system employee and will complete the field experience at your worksite, you will be asked to specify the school at which you will be completing the field experience.

If you request a field experience placement to be arranged, you will receive information via your GMU email account about your assigned internship placement from the Clinical Practice Specialist in the College's Educator Preparation Office (EPO). Check your GMU email regularly for important information regarding your field experience. Follow all instructions for the necessary Human Resource (HR) paperwork required to access the assigned field

experience placement.

2. View the EDSE Field Experience Introduction presentation. On the first week of classes and prior to representing George Mason in off-campus settings, your instructor will show a video presentation or provide a link to the presentation, which includes important information about the registration process for EDSE field experiences and tips for a successful field experience. After the presentation, sign the document provided by your instructor to indicate that you have watched the presentation and are aware of the EDSE field experience professionalism expectations.

3. Document your field experience hours. Your instructor will provide you with access to field experience documentation forms to use. There are two different field experience documentation forms – one for those completing field experience at their worksite and one for those completing field experiences in other classroom settings (e.g., GMU arranged a placement for you). Use the form that is most appropriate for your field experience placement. Your instructor will provide more directions on how to use and submit the documentation form.

4. Complete the field experience end-of-semester survey. Towards the end of the semester, you will receive an email from EDSEfld@gmu.edu with a link to an online survey. This brief survey asks you to report about important features of your field experience placement.

Other Assignments

5. Apply the Concept (4 at 15 points each/60 points)

You will complete one apply the concept activity for each module. These assignments check your understanding of the content and your ability to apply these concepts to various scenarios. You may use the textbooks and your notes to help you complete these checks.

6. Discussion Board (6 at 5 points each/30 points)

You will participate in a total of six Blackboard discussion boards in this course. Specific instructions will be given for each discussion board and should be reviewed prior to beginning the assignment.

Online EDSE 502 Total Course Points	
Assignment	Points
Comparison of School Behavior Plans	20 points
Apply the Concept (15 points each)	60 points
Classroom Management Plan	60 points

Discussion Boards (5 points each)	30 points
Functional Behavioral Assessment	75 points
Behavior Intervention Plan	75 points
Total	320 points

Course Policies and Expectations

Attendance/Participation

This course will be delivered in an asynchronous format. Optional synchronous meetings may be planned throughout the semester. Several assignments, including group activities, will take place that will require submissions at specific dates and times. To keep up with the assignments and the content, it is recommended that you do the following:

- At the start of a module, read through the module and note the requirements and submission deadlines.
- Develop a timeline for the assignments so that you have time to complete individual assignments, collaborate on group work, and respond to peers.
- Review the checklist at the beginning and end of each module to understand that tasks that must be completed by the end of each module

Late Work

Late work will not be accepted without prior arrangement with the instructor. If such an arrangement is made, the maximum extension is one week. Only one assignment may qualify for an extension request. Assignments are considered late if they are submitted after 11:59 PM on the date that it is due.

Communication

The best way to contact me is via email at aboykin2@gmu.edu or through the email link on the Blackboard course. Although I check my email multiple times a day, please allow 24-hours for a response. I will respond to emails send on the weekends on Sunday nights.

Grading Scale

95-100% = A	90-94% = A-	87-89% = B+	83-86% = B	80-82% = B-	70-79% = C	< 69% = F
-------------	-------------	-------------	------------	-------------	------------	-----------

*Note: The George Mason University Honor Code will be strictly enforced. Students are responsible for reading and understanding the Code. “To promote a stronger sense of mutual responsibility, respect, trust, and fairness among all members of the George Mason University community and with the desire for greater academic and personal achievement, we, the student members of the university community, have set forth this honor code: Student members of the George Mason University community pledge not to cheat, plagiarize, steal, or lie in matters

related to academic work.” Work submitted must be your own or with proper citations (see <https://catalog.gmu.edu/policies/honor-code-system/>).

Professional Dispositions

Students are expected to exhibit professional behaviors and dispositions at all times. See <https://cehd.gmu.edu/students/policies-procedures/>. In the College of Education and Human Development, dispositions are formally and separately evaluated in at least three points in each student’s program – a self-evaluation at the start of their program, an instructor’s evaluation in the middle of their program, and a university supervisor’s evaluation during internship. When dispositions are assessed, it is important that for areas where a positive disposition is ‘occasionally evident’ or ‘rarely evident,’ the student takes steps to grow as an educator. See <https://cehd.gmu.edu/epo/candidate-dispositions>. In special education licensure programs, the mid-point evaluation is completed by instructors in EDSE 628, EDSE 661, and EDSE 616, and the internship evaluation is completed by instructors in EDSE 783, EDSE 784, and EDSE 785.

Class Schedule

*Note: Faculty reserves the right to alter the schedule as necessary, with notification to students.

Core Values Commitment

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: <http://cehd.gmu.edu/values/>

GMU Policies and Resources for Students

Policies

- Students must adhere to the guidelines of the Mason Honor Code (see <https://catalog.gmu.edu/policies/honor-code-system/>).
- Students must follow the university policy for Responsible Use of Computing (see <http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students **solely** through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see <http://ods.gmu.edu/>).
- Students must silence all sound emitting devices during class unless otherwise authorized by the instructor.

Campus Resources

- Support for submission of assignments to Tk20 should be directed to tk20help@gmu.edu or <https://cehd.gmu.edu/aero/tk20>. Questions or concerns regarding use of Blackboard should be directed to <http://coursesupport.gmu.edu/>.
- For information on student support resources on campus, see

<https://ctfe.gmu.edu/teaching/student-support-resources-on-campus>

For additional information on the College of Education and Human Development, please visit our website <https://cehd.gmu.edu/students/>.

Classroom Management Plan Rubric

Evaluation Standards	Required Components	Points
<ul style="list-style-type: none"> • Avoid first person (i.e., using “I” or “We”) throughout the entire assignment • Use excellent written language (per APA style) throughout • Do not use any identifying information of people, schools, or school systems. Maintain confidentiality at all times. 		
Part One		
Classroom Arrangement	<p>Write a narrative summary that describes what the classroom’s physical arrangement looks like. Refer to the drawing of the classroom when appropriate.</p> <ul style="list-style-type: none"> ✓ Insert a detailed drawing of the classroom including where centers, desks, etc. are located. ✓ Using information about the physical arrangement of the classroom, identify the corresponding type of instruction that can occur (e.g., small group, large group). ✓ Comment on the likelihood of smooth transitions for students to/from areas, teachers’ capacity to circulate and see all students, and other aspects significant to this specific classroom’s arrangement. 	/2.5
Effectiveness of Current Classroom Arrangement	<ul style="list-style-type: none"> ✓ Strengths of the current classroom arrangement are determined by ✓ Areas of need for the current classroom arrangement. <p>Use data you acquired from the self-assessment instrument to identify strengths and areas of need. Place the completed self-assessment in the Appendix. You can also use content from the text and your recent research to note strengths and areas of need.</p>	/2.5
Daily or Session Schedule	<p>Summarize what happens either across the day or across the session (e.g., math class; 3rd period science). Place the detailed schedule (if there is one) in the Appendix. In the summary, tell about how long for specific activities (you can only provide the information if it is clearly there) so it is clear what activities and how much time is set aside for each activity.</p>	/1.5
Behavior Management	<p>Write a narrative summary that describes what the teacher uses for behavior management. Use relevant content from the self-assessment, text chapters, and article. Some details include responses to these questions, but this is not intended as an exhaustive listing of queries for this section.</p> <ul style="list-style-type: none"> --What are the classroom rules, and how measurable or clear are they? --What is visible for a corresponding matrix for the classroom rules? --What is evident for how the classroom rules connect to the schoolwide rules? --What kinds of routines or procedures are used during the observation time? --What are the procedures for promoting appropriate behavior? --What are the procedures for responding to undesired behavior? ==Related to the two above, what is the continuum of responses for appropriate or undesired behaviors? 	/5.5
Effectiveness of Current Behavior System	<ul style="list-style-type: none"> --Strengths of the current behavior system. --Areas of need for the current behavior system. <p>Use data you acquired from the self-assessment instrument to identify strengths and areas of need. You can also use content from the text and your recent research to note strengths and areas of need.</p>	/5

Part Two		
Ideal	<p>Based on what has been identified so far for areas of need, and areas that could be refined, improved, or developed, describe two substantive improvements on:</p> <p>--physical arrangement of the classroom (create a second drawing and highlight changes)</p> <p>--behavior management (connect to text chapters and/or research article)</p> <p>Based on the classroom rules you saw (if no rules, you develop them) and the sequence of activities in the schedule (if no activities, then you develop them), develop a classroom rules matrix for the class.</p>	/5
Philosophy	Describe your personal emerging philosophy of classroom management, based on content you are learning in this course. Refer to sources as needed. Within your description, make an explicit connection to one of the Council for Exceptional Children's Professional Ethical Principles.	/2
APA Technical	✓ APA citations within the plan and in References are accurate	/1
Total Points Earned		/24

Comparison of School Behavior Plans Rubric

<i>Section</i>	<i>Description</i>	<i>points earned</i> / <i># of points possible</i>
<i># 1 – Summarize the school’s discipline approach.</i>	What is the current school-wide discipline approach? Briefly summarize (but not too briefly! Details needed too!) school-wide expectations for your setting. Include in your summary a description of the level of consistency among classroom expectations across settings, as is evident from the school plan (for what’s not evident, indicate that). Minimum # of words is 200* (may be more words, but not too much more – prioritize and summarize!).	___ / 5
<i># 2 – Similarities between your school’s discipline approach and SW-PBIS</i>	Given the descriptions of SW-PBIS (refer to S&H + class content), what are the major similarities between your school and a PBIS School? If you have many similarities, minimum # of words is 200* (may be more words, but not too much more – prioritize and summarize!). If there are no similarities, note that here and then add the # of words needed here to the next section on differences (you would need 400 words or more in differences section).	___ / 5
<i># 3 – Differences between your school’s discipline approach and SW-PBIS</i>	Given the descriptions of SW-PBIS (refer to S&H + class PPTs), what are the major differences with a PBIS School? If you have many differences, minimum # of words is 200* (may be more words, but not too much more – prioritize and summarize!). If there are no differences, note that here and then add the # of words needed here to the previous section on similarities (you would need 400 words or more in similarities section).	___ / 5

	<i>NOTE: Even if you are a PBIS school, you may realize you DO have differences from what the PBIS SHOULD be – which should be noted here!</i>	
# 4 – Suggestions for growth	<p>For your school, what are your suggestions for growth? Minimum # of words is 200* (may be more words, but not too much more – prioritize and summarize!).</p> <p><i>NOTE: If you are a PBIS school, consider whether things are PERFECT at that school! If perfect as is right now, what are ways to maintain what is? Improvements needed anywhere for what’s supposed to be in place? If no for that, what are next steps to “grow” the PBIS, such as what was featured in video with parents and community? Initiatives like PBIS are seldom stagnant, even when things are going well now.</i></p>	___ /3
Accurate APA Style, Spelling and Grammar	<ul style="list-style-type: none"> • Avoid first person (i.e., using “I” or “We”) throughout the entire assignment. • Use accurate APA style throughout the assignment • Use accurate spelling and grammar throughout the assignment 	___ /2
