

**College of Education and Human Development
Division of Special Education and disAbility Research**

Spring 2022

EDSE 501: Introduction to Special Education

Section: 6S5 CRN: 25290

3 – Credits

Instructor: Liber L Riccio, EdD	Meeting Dates: 2/7/22 – 5/2/22
Phone: 202 744 9775	Meeting Day(s): N/A
E-Mail: lriccio@gmu.edu	Meeting Time(s): N/A
Office Hours: N/A	Meeting Location: N/A; Online
Office Location: N/A	Other Phone: N/A

Note: This syllabus may change according to class needs. Teacher Candidates/Students will be advised of any changes immediately through George Mason e-mail and/or through Blackboard.

Prerequisite(s):

None

Co-requisite(s):

None

Course Description

Provides a survey of current knowledge on individuals with disabilities within the context of human growth and development across the lifespan. Includes historical factors, legal aspects, etiology, characteristics, assessment, evidence-based practices, and support services for individuals having needs for intervention ranging from mild to severe/profound. Includes the impact of disabilities on academic, social, and emotional performances framed within the teaching profession as a whole.

Course Overview

EDSE 501 is a foundational course exploring essential concepts regarding individuals with disabilities within the context of human growth and development across the life span. The course includes information about historical factors, legal aspects, etiology, characteristics, assessment, evidence-based practices, and support services for individuals with disabilities having needs for intervention ranging from mild to profound. Students will examine the impact of disabilities on academic, social, and emotional performances framed within the teaching profession as a whole.

Advising Contact Information

Please make sure that you are being advised on a regular basis as to your status and progress in your program. Students in Special Education and Assistive Technology programs can contact the Special Education Advising Office at 703-993-3670 or speced@gmu.edu for assistance. All other students should refer to their assigned program advisor or the Mason Care Network (703-993-2470).

Advising Tip

Did you know that students in "quick admit" and non-degree status are restricted in the number of classes they can take? Students planning to complete a program should apply as soon as possible. Apply at <http://cehd.gmu.edu/admissions/steps>.

Course Delivery Method

Learning activities include the following:

1. Class lecture and discussion
2. Application activities
3. Video and other media supports
4. Research and written presentation activities
5. Electronic supplements and activities via Blackboard

This course will be delivered online (76% or more) using an asynchronous format via Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (Bb) course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. *Course site will be available on 2 February 2022.*

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

Technical Requirements

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard's supported browsers see: [Browser support \(https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#supported-browsers\)](https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#supported-browsers)

List of supported operation systems on different devices: [Tested devices and operating systems \(https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#tested-devices-and-operating-systems\)](https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#tested-devices-and-operating-systems)

- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.

- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, are available for free download:
 - [Adobe Acrobat Reader \(https://get.adobe.com/reader/\)](https://get.adobe.com/reader/)
 - [Windows Media Player \(https://support.microsoft.com/en-us/help/14209/get-windows-media-player\)](https://support.microsoft.com/en-us/help/14209/get-windows-media-player)
 - [Apple Quick Time Player \(www.apple.com/quicktime/download/\)](http://www.apple.com/quicktime/download/)

Expectations

- **Course Week:**
Because asynchronous courses do not have a “fixed” meeting day, our week will start on Monday, and finish on Sunday. Our course week will begin on the day that our synchronous meetings would take place (Monday) as indicated on the Schedule of Classes.
- **Log-in Frequency:**
Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least 3 times per week.
- **Participation:**
Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.
- **Technical Competence:**
Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- **Technical Issues:**
Students should anticipate some technical difficulties during the semester and should, therefore, budget time accordingly. **Late work will not be accepted based on individual technical issues.**

Module 4 final assignment : Papers **longer** than 12 pages (12 pt font, double spaced, including cover page and references) will not be graded – they will be returned.

- **Workload:**
Please be aware that this course is not self-paced. **Course members are expected to meet *specific deadlines and due dates listed in the Class Schedule section of this syllabus.*** It is the student’s responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.
- **Instructor Support:**
Students may schedule a one-on-one meeting (via telephone or zoom, etc) to discuss course requirements, content or other course-related issues. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.

- **Netiquette:**
The course environment is a collaborative space. Sometimes even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.
- **Accommodations:**
Online learners who require effective accommodations to ensure accessibility must be registered with George Mason University Disability Services.

Learner Outcomes

Upon completion of this course, teacher candidates/students will be able to:

1. Analyze how educators and other professionals address the variance between “typical” and “atypical” behaviors across the lifespan.
2. Distinguish characteristics of children and youth with disabilities across all IDEA categories relative to age, varying levels of severity, and developmental differences manifested in cognitive, linguistic, physical, psychomotor, social, or emotional functioning.
3. Interpret information on individual differences and formulate ways to create meaningful learning experiences and interaction opportunities for all students.
4. Explain current regulations governing special education policies and practices including rights, responsibilities, legal status of parties within context of schools and communities.
5. Analyze historical perspectives, models, theories, philosophies, and trends that provide the basis for special education practice within the context of organized public education in the United States.
6. Examine legal aspects of special education regarding litigation, legislation, and expectations associated with the identification, education, and evaluation of students with disabilities.
7. Explain the etiological factors and medical aspects associated with various disabilities.
8. Summarize and evaluate past, present, and future models of assessment and intervention, including use of innovative technology.
9. Illustrate how principles of learning influence the selection of relevant, appropriate, and culturally responsive materials for all learners (e.g., gifted, English learners, students with disabilities).
10. Identify individual needs of a child and related evidence-based practices for intervention.
11. Evaluate the dynamic influence of family systems relative to the education of students with disabilities.
12. Evaluate the dynamic influence of culture and environmental settings relative to the education of students with disabilities.
13. Consider ethical considerations for the treatment of all children within the context of professional standards of practice.
14. Recognize child abuse and implement research-based interventions to address abusive and traumatic situations.

Professional Standards

(Council for Exceptional Children [CEC] and the Interstate Teacher Assessment and Support Consortium [InTASC]). Upon completion of this course, students will have met the following professional standards: CEC Standard 1: Learner development and individual learning differences (InTASC 1,2) & CEC Standard 3: Curricular content knowledge (InTASC 4,5).

Required Texts

Hallahan, D. P., Kauffman, J. M., & Pullen, P. C., (2018). *Exceptional Learners: An introduction to special education* (14th ed.). Pearson.

Recommended Textbooks

American Psychological Association. (2020). *Publication manual of the American Psychological Association* (7th ed.). <https://doi.org/10.1037/0000165-000>

Required Resources

On Blackboard

Additional Readings On Blackboard (Required)

On Blackboard

Additional Reading (Not Required)

Riccio, L. L. (2014), *For What Child*, Amsterdam, Netherlands: Sense Publishing

GMU Library link for the ebook version of *For What Child*

Course Performance Evaluation

Course members are expected to submit all assignments on time in the manner outlined by the instructor (e.g., on Blackboard, in syllabus, on assignment rubric).

VIA Performance-Based Assessment Submission Requirement

It is critical for the special education program to collect data on how our students are meeting accreditation standards. Every teacher candidate/student registered for an EDSE course with a required Performance-based Assessment (PBA) is required to upload the PBA to VIA (regardless of whether a course is an elective, a one-time course or part of an undergraduate minor). A PBA is a specific assignment, presentation, or project that best demonstrates one or more CEC, InTASC or other standard connected to the course. A PBA is evaluated in two ways. The first is for a grade, based on the instructor's grading rubric. The second is for program accreditation purposes. Your instructor will provide directions as to how to upload the PBA to VIA.

For EDSE 501, the required PBA is **(NO ASSESSMENT REQUIRED FOR THIS COURSE)**. Please check to verify your ability to upload items to VIA before the PBA due date.

Assignments and/or Examinations

Performance-based Assessment

(VIA submission required)

None

College Wide Common Assessment

(VIA submission required)

The required college-wide common assessment in EDSE 501 is the dispositions self-assessment. Towards the beginning of their licensure programs, all teacher candidates complete a self-rating of dispositions, which reflect one's attitudes and deeply held beliefs. The self-assessment will be an online survey, which can be accessed via the Assessments page of the course Blackboard site; see your course syllabus for more information on when this self-assessment will be due. The self-assessment has 12 items that ask you to reflect on your professional responsibility, collaboration and leadership, cultural responsiveness, and high expectations for learning. Please note that teacher candidates at the beginning of their programs may not rate themselves as proficient or highly proficient in all areas, as they may not have had opportunities to demonstrate those skills; as such, the initial self-assessment of dispositions is an opportunity for you to (a) learn about professional dispositions, (b) engage in reflection on your dispositions, and (c) identify opportunities for future growth. In addition to this initial self-rating in EDSE 501, your dispositions will also be assessed at least 2 other times during your program: a mid-point self-rating during a designated course (EDSE 627, EDSE 661, and EDSE 616) and an instructor-rated evaluation by a university supervisor during internship (EDSE 783, EDSE 784, and EDSE 785). In addition to these three designated evaluation times, instructors may complete instructor-rated disposition assessments other times throughout the program. For more information on dispositions, see <https://cehd.gmu.edu/epo/candidate-dispositions>.

Other Assignments

- **Reading Quizzes** - At the end of each lesson, there is a reading check assignment. Generally, these checks are 10 multiple choice questions. These reading checks assess your understanding of the chapter in the textbook you were assigned. You may use your text or notes to help you complete these checks. **You may take each reading check quiz (except the exploratory reading check) up to 2 times.**

Module Assignments - See the Assignments tab in Blackboard for detailed directions. Below is a brief summary of the four major assignments.

- **Module 1 (6-9 pages including cover and references)** : The paper is a personal philosophy statement. It also requires you to choose and write about two activities from a list of community-based options – not school-based activities. **Use rubric Section and question numbers as your guide when organizing your responses to each question in the assignment.** For example, start with Section 1, question 1., answer the question, then 2, answer the question and so on – this will ensure you have responded fully to each question.

- **Modules 2 and 3** : are intended to help you collect information from multiple sources to dig deeper into one disability group (**one of the 13 IDEA disability categories – not subcategory**) for each assignment. At the beginning of the module, you will choose a disability group (high incidence or low incidence) that corresponds to the module’s focus.
- **Module 4** (Module 4 Final Paper) : **9-12 pages including cover, abstract, and reference page(s)**. Choose a disability topic (1 of 13 IDEA disability categories only – **not a subcategory**); research the disability and write about it. You will use information/research from other module assignments and additional research to inform the final paper. **Papers longer than 12 pages total including references** (12 pt font, double spaced) **will not be graded – they will be returned. And use the Section headings (A-E) as your guide when organizing your paper** to ensure you have responded fully to each Section.
- **Reflections 1- 4** : are intended to present thought provoking situations from each course module where your opinion and research will be integrated to form your ideas regarding each unique situation. The paper length not to exceed 4 pages inclusive of your response and references. **Use the question numbers as your guide when organizing your responses to each reflection.** For example, start with 1, answer the question, then 2, answer the question, and so on – this will ensure you have responded fully to each question.

Assignments for Modules 1 and 4 should be written in APA style, including a cover page, running head, pagination, headings (as needed), citations, and reference pages, etc.

Assignment Summary

Course Assignments	Earned Points	Possible Points
Reading Checks (16)		(25 points, each) 400
Module Self-Reflections (4)		(25 points, each) 100
Module 1		100
Module 2		75
Module 3		75
Module 4		150
Child Abuse Training Dyslexia Awareness Training		REQUIRED for passing course (2@ 50 points, each) 100
TOTAL COURSE POINTS		1000

Course Policies and Expectations

Attendance/Participation

All instruction takes place online through Mason’s Blackboard Learning Management System. This is a 3-credit graduate level course. Traditional 3-credit courses across a 15-week semester require an average of 45 hours of in-class time and approximately 90

hours of independent reading and assignment completion. This course includes the same amount of content as a traditional 15-week course. As you budget your time for the course, keep in mind the importance of allotting an appropriate amount of time for course preparation, reading assignments, lesson activity completion, and longer module assignments. I would recommend that you review the syllabus carefully and develop a schedule for yourself. Students have failed the course because they did not allocate time and ran out of it at the end. **Please note that ALL work for the course must be completed by the end date of the course given in the Course Schedule.**

This is both an interactive and independent course that requires a high level of self-direction, communication, and problem solving on your part. You will learn from the material provided and from one another. You are responsible for all communication that occurs during the time of the course. Please check your Mason email frequently (or set it to forward to a preferred address), even after you have finished all components of the course. If something is missing or I need to contact you, I will send you communication through your Mason email only. If you are having trouble finding something within the course or have content-based questions, please contact me. If you are having technical issues, please refer to the ITU Contact information in this syllabus.

Written Assignments. References, Sources and Cites

What is acceptable in this course

A good option for references/sources/cites is to check the many online full text databases subscribed to by the University Libraries and available for free to all Mason students. The content in these databases have gone through an editorial process, have been peer-reviewed, the authors are identified along with their credentials and affiliations, they cite their sources, there is no advertising, the articles have dates so you know when it was written (or at least published). This is the gold standard in this course.

What is not acceptable in this course

Cites/references from WebMD, Wikipedia, similar commercial online services.

Evaluation

Assignments are evaluated according to rubrics. You can find assignment descriptions and rubrics in each Module. Grades for most reading checks will be available immediately after you finish and will post to Grade Center (My Grades in the left side navigation bar). For Module assignments I will grade assignment and post score you earned and my comments to Grade Center. You can read comments by clicking on grade. If you have any questions. If you have difficulty with an assignment, either in understanding it or completing it, please contact me immediately to discuss.

All Module assignments require you to synthesize material from the Course and outside sources into coherent statements of your ideas. In all cases, your writing should be data-

based, meaning that you must support statements and ideas with evidence from sources, giving these source(s) credit - - remember plagiarism is **stealing someone else's work** – **cite your sources completely and accurately**. The standard format for writing in education is outlined in the 2020 *Publication Manual of the American Psychological Association*. The citation for this manual is included in the section, Recommended Texts. This is also called “APA Style.” For an online resource, see www.apastyle.org.

N.B. PAY PARTICULAR ATTENTION TO RUBRICS, and FOLLOW FORMAT OF ASSIGNMENTS (i.e., order of questions) AS WELL AS APA STYLE GUIDELINES

Late Work

You have a great deal of latitude to plan your time. *There are recommended dates for completion of all assignments. However, **final due dates** are provided starting 17 April to support the successful completion of the course. During this period of **final due dates**, late work will be accepted with a 10% per day point reduction.* For example, a course member will lose 10 points from the 100 points available for the Module 1 assignment the first day the assignment is late. So, if Module 1 assignment is one day late the maximum score possible is 90 with no other point reductions.) ***No work will be accepted after midnight EST on final day of course.***

ALL WORK IS TO BE SUBMITTED IN WORD, NOT .pdf

Grading Scale

As you can imagine, grading and providing feedback are among the most powerful tools in which a professor (and teacher) can communicate with course members / students. They are interconnected tools that allow the professor (in this case me) to express what he thinks about a student’s learning, and a course member/student to take on board the comments – either way it is a growth experience.

If a course member waits until the last minute to submit assignments, it will impact on my ability to respond fully to that submission – I will only be able to give a grade and not be able to give you feedback since the clock will be running toward the end date for the course. Please keep this in mind as you start the course and your assignments.

Points	Grade
950 -1000	A
900 - 940	A-
860-890	B+
800-850	B
770-790	B-
730-760	C
<730	F

***Note:** The George Mason University Honor Code will be strictly enforced. See [Academic Integrity Site \(https://oai.gmu.edu/\)](https://oai.gmu.edu/) and [Honor Code and System \(https://catalog.gmu.edu/policies/honor-code-system/\)](https://catalog.gmu.edu/policies/honor-code-system/). Students are responsible for reading and understanding the Code. “To promote a stronger sense of mutual responsibility, respect, trust, and fairness among all members of the George Mason University community and with the desire for greater academic and personal achievement, we, the student members of the university community, have set forth this honor code: Student members of the George Mason University community pledge not to cheat, plagiarize, steal, or lie in matters related to academic work.” Work submitted must be your own new, original work for this course or with proper citations.

Professional Dispositions

Students are expected to exhibit professional behaviors and dispositions at all times. See [Policies and Procedures \(https://cehd.gmu.edu/students/policies-procedures/\)](https://cehd.gmu.edu/students/policies-procedures/). Students are expected to exhibit professional behaviors and dispositions at all times. Professional dispositions are an essential function of a special educator’s job, indicating that these dispositions are critical to develop and assess in special education licensure programs. In the College of Education and Human Development, dispositions are formally and separately evaluated in at least three points in each student’s program – a self-evaluation at the start of their program, a self-evaluation at the mid-point of their program, and a university supervisor’s evaluation during internship. In special education graduate licensure programs, the initial self-evaluation is completed in a designated course (EDSE 501), the mid-point self-evaluation is completed in designated courses (EDSE 627, EDSE 661, and EDSE 616), and the internship evaluation is completed by instructors in EDSE 783, EDSE 784, and EDSE 785. In addition to these three designated evaluation times, instructors may complete instructor-rated disposition assessments other times throughout the program. When dispositions are assessed, it is important that for areas where a positive disposition is rated as “not proficient,” the student takes steps to grow as an educator. See <https://cehd.gmu.edu/epo/candidate-dispositions>.

Class Schedule

***Note:** Faculty reserves the right to alter the schedule as necessary, with notification to students.

Topic	Event / Assignment	Suggested Due Date	Final Due Date *

Final Paper: Use feedback from all previous module activities and assignments to compose final paper	Module 4 paper	5.2	5.2 midnight EST

***Assignments submitted after final due date will be penalized 10% for each day the assignment is late past the final due date. (See Late Work on page 8)**

GRADES will be submitted to Patriot web by the Thursday after last day of class

Core Values Commitment

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: See [Core Values](http://cehd.gmu.edu/values/) (<http://cehd.gmu.edu/values/>).

GMU Policies and Resources for Students

Policies

- Students must adhere to the guidelines of the Mason Honor Code. See [Honor Code and System](https://catalog.gmu.edu/policies/honor-code-system/) (<https://catalog.gmu.edu/policies/honor-code-system/>).
- Students must follow the university policy for Responsible Use of Computing. See [Responsible Use of Computing](http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/) (<http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor. See [Disability Services](https://ds.gmu.edu/) (<https://ds.gmu.edu/>).
- Students must silence all sound emitting devices during class unless otherwise authorized by the instructor.

Campus Resources

- Support for submission of assignments to VIA should be directed to viahelp@gmu.edu or <https://cehd.gmu.edu/aero/assessments>.
- Questions or concerns regarding use of Blackboard should be directed to [Blackboard Instructional Technology Support for Students](https://its.gmu.edu/knowledge-base/blackboard-instructional-technology-support-for-students/) (<https://its.gmu.edu/knowledge-base/blackboard-instructional-technology-support-for-students/>).

Notice of mandatory reporting of sexual assault, sexual harassment, interpersonal violence, and stalking:

As a faculty member, I am designated as a “Non-Confidential Employee,” and must report all disclosures of sexual assault, sexual harassment, interpersonal violence, and stalking to Mason’s Title IX Coordinator per [University Policy 1202](#). If you wish to speak with someone confidentially, please contact one of Mason’s confidential resources, such as [Student Support and Advocacy Center](#) (SSAC) at 703-380-1434 or [Counseling and Psychological Services](#) (CAPS) at 703-993-2380. You may also seek assistance or support measures from Mason’s Title IX Coordinator by calling 703-993-8730, or emailing titleix@gmu.edu.

.

For additional information on the College of Education and Human Development, please visit our website [College of Education and Human Development \(http://cehd.gmu.edu/\)](http://cehd.gmu.edu/).

Appendix

Assessment Rubric(s)

Module 4 Assignment

Module 4 Assignment (Also known as final paper) is an opportunity to show growth in your knowledge about learners with disabilities.

Select one disability category – not a sub group of a disability and through your research demonstrate your knowledge of : (a) the characteristics, including etiology of the disability, (b) learning needs of individuals with the disability, (c) lifespan issues related to the disability (including impact of a disability on the individual and family), and (d) how disability is similar and different to other types of disabilities (e.g., mild, severe, sensory).

Do not rely mainly on the book to complete this assignment.

To show growth and to meet competencies noted in the rubrics, you must combine what you learned from the following into a RESEARCH paper:

1. The coursework (e.g., lectures, videos, articles, and textbook readings),
2. The independent learning activities you have completed (e.g., IRIS modules, field experiences), and
3. The exploratory activity you completed in lesson 3 of Module 4.

Paper Guidelines

Your paper should be at least 10 pages and not longer than 12 pages including cover page, abstract and references. Papers longer than 12 pages will not be graded – they will be returned. **See how to write a pithy paper in the Announcement Folder. Papers must be in 12 pt and double spaced.**

You may choose to describe the characteristics and the impact of a selected disability and make connections to how you experienced or observed this in your field experience and exploratory activity. You may choose to describe meaningful experiences from your field experience and exploratory activity and explain how that connects with the content you have learned in the course. Your writing should be clear and easy to understand. And you should have at least 10

references cited in APA format. Be sure to refer to grading rubric to make sure that you have addressed all required topics.

Your goal is to clearly show how your own perceptions of disability have changed and evolved this semester AND demonstrate with research and use of course materials and outside sources that you clearly understand the content you have learned. Your paper should address the following areas for the disability category you have selected and you must include each section in the order it is presented.

A. Disability Category (not sub group of category) Characteristics

What are the characteristics of the disability you have selected to discuss, for example:

- What is its prevalence? Is it a high- or low- incidence disability?
- How is it assessed?
- What is its etiology
- Are physical/medical issues associated with this disability?
- Are there social or behavioral implications associated with this disability?
- What are the requirements related to identification and eligibility for placement for special education services under IDEA – specify the placement process and eligibility characteristics per the IDEA regulation – yes, state the regulation pertinent to the disability and the requirements for admission to special education services?

B. Learning Needs

How does the disability affect learning? For example:

- What areas of learning might be impacted by this disability?
- What teaching strategies might benefit learners with this disability?
- What FAPE, IEP, LRE etc considerations are needed - or not?
- What accommodations might students with this disability need?
- Where might a student with this disability receive services? (Think LRE.)
- What skills will teachers need to work with students who have this disability
- What community/family needs and behaviors etc are associated with the chosen disability

C. Lifespan Issues (including Impact on Individual and Family)

How does having this disability impact an individual?

- What are early childhood issues that need to be considered?
- What are community issues that need to be considered?
- What are post-secondary (after high school – job, college, independent living) factors that need to be considered?
- What impact does having this disability have on social relationships?
- What is the impact of the disability on the family?
 - What daily living skills might be impacted by this disability?
 - How does this disability impact family dynamics?
 - What information do families need to advocate for their children who have disabilities?

D. Similarities and Differences to Other Disabilities

How is this disability similar and different to other disabilities (or other disability areas)?

For example:

- Is there a difference in the prevalence of the chosen disabilities?
- What are differences in possible school placements for students with the selected disabilities?
- What types of instructional strategies or accommodations/modifications may be different for students with the chosen disabilities?

E. Information Synthesis

What have you learned about learners with disabilities in the course, through your assignments and research? What did you learn from the completion of independent learning activities (IRIS modules, field experiences, and exploratory activities)? And can you show what you learned in the course by integrating what was learned through these experiences with learning from other coursework (lectures, discussions, articles, and textbook readings).

*(This section does not have to be a separate section but in order to get credit there must be clear statements showing personal growth in knowledge about learners with disabilities **through** your writing and research. You must clearly demonstrate completion of independent learning activities (IRIS modules, field experiences, and exploratory activities) by integrating what was learned through these experiences with learning from other coursework (lectures, discussions, articles, and textbook readings).*

F. APA Style

Your writing should be clear and easy to understand and is research based and with few to no grammar errors/typos. At least 10 references and at least 10 different citations (from different reference materials) are correctly reported/cited in APA format. And the APA/GMU paper format (eg, title page, abstract, header, reference page) must be followed.

Grading Rubric

USE the following rubric as section headings in your paper –

MAKE SURE YOU FOLLOW THE RUBRIC BELOW TO ENSURE YOUR PAPER MEETS THE REQUIREMENTS FOR THE WORK TO BE GRADED – NOT LONGER THAN 12 PAGES INCLUDING COVER, ABSTRACT, NARRATIVE AND REFERENCES

Requirement	Points
<p>a. Disability Category (not a sub group of a disability) Characteristics Salient characteristics including etiology and history, of the disability are clearly described. Requirements related to identification, assessment and eligibility for placement for special education services under IDEA are</p>	<p><u> </u> /25</p>
<p>b. Learning Needs Learning and social/community needs associated with the chosen disability are clearly described and discussed, including relevant FAPE related considerations - LRE, IEP, etc.</p>	<p><u> </u> /25</p>
<p>c. Lifespan Issues (including Impact on Family) A clear description and discussion of the impact of the disability across the lifespan (home, community, school, post school, etc) is provided.</p>	<p><u> </u> /25</p>
<p>d. Similarities and Differences to Other Disabilities The paper compares and contrasts the chosen disability with <u>2</u> other disabilities (or disability categories: mild, severe, or sensory). Is there a difference in the prevalence of the chosen disabilities?</p> <ul style="list-style-type: none"> <input type="checkbox"/> What are differences in possible school placements for students with the selected disabilities? <input type="checkbox"/> What types of instructional strategies or accommodations/modifications may be different for students with the chosen disabilities? 	<p><u> </u> /25</p>
<p>e. Information Synthesis Student demonstrates personal growth in knowledge about learners with disabilities through writing and research. Student demonstrates completion of independent learning activities (IRIS modules, field experiences, and exploratory activities) by integrating what was learned through these experiences with learning from other coursework (lectures, discussions, articles, and textbook readings). <i>(This section does not have to be a separate section but in order to get credit there must be clear statements showing personal growth in knowledge about learners with disabilities through your writing and research. College of Education and Human Development

SAFE RETURN TO CAMPUS GUIDANCE FOR STUDENTS ENROLLED IN CEHD COURSES

Both a Safe Return to Campus and Successful Learning Opportunities Depend on YOU.

All students are required to take the Safe Return to Campus Training prior to visiting campus: it is, however, recommended for all Mason students, even those who are enrolled in fully online classes. Training is available in Blackboard.

Students are required to follow the university's public health and safety precautions and procedures outlined on the university Safe Return to Campus webpage.

All students are required to be fully vaccinated by January 5, 2022, unless they received an approved exemption. You should also have uploaded your vaccine documentation to the Health Services Patient Portal by January 5.

The deadline to receive a booster and upload your documentation is February 15, 2022.

Everyone, even those who are fully vaccinated, must wear a face covering when inside university property (buildings and vehicles). If you're unvaccinated, you must wear a mask outside, as well, when at an event or if physical distancing can't be maintained. Read the full face covering policy [here](#).

All students in face-to-face and hybrid courses must also complete the Mason COVID Health Check daily, seven days a week.

- You may not come to class if you receive a Yellow, Red, or Blue email response to the Mason COVID Health Check.
- You may only come to class if you receive a Green email response to the Mason COVID Health Check.
- You must quarantine and get tested if you receive a Blue email response, because you indicated that you recently traveled outside of the United States, are not fully

vaccinated, or have not completed the required 7 to 10 day quarantine period for international travel.

- If you suspect that you are sick or have been directed to self-isolate, quarantine, or get testing do not go to class.
- Faculty are allowed to ask you to show them that you have received a Green email and are thereby permitted to be in class.

Disability Services: Students unable to participate in a course in the manner presented, either due to existing disability or COVID comorbidity risk, should seek accommodations through the Office of Disability Services.

Students may not, either individually or collectively, request permission to change the modality of a current course section due to COVID risks or concerns. If students are not comfortable with the modality of the course for which they are registered, they will need to register for a course offered in a different modality which better will accommodate their needs through the established drop/add process.

Campus Closure: If the campus closes or class is canceled due to weather or other concerns, students should check Blackboard, Mason email, or the Mason website for updates on how to continue learning and information about any changes to events or assignments.

Participation and Make-up Work: CEHD instructors will work with students to find reasonable opportunities to make up class work or assignments missed due to documented illness. Begin by contacting your instructor for guidance. For further assistance, students may contact their program and the CEHD Office of Student and Academic Affairs (cehdsaa@gmu.edu).

Technology Requirements:

- Activities and assignments in CEHD courses regularly use the Blackboard learning system. Students are required to have regular, reliable access to a computer with an updated operating system (recommended: Windows 10 or Mac OSX 10.13 or higher) and a stable broadband Internet connection (e.g., cable modem, DSL, satellite broadband) with a consistent 1.5 Mbps [megabits per second] download speed or higher.
- Additionally, CEHD course activities and assignments may regularly use web-conferencing software (e.g., Blackboard Collaborate or Zoom). In addition to the requirements above, students are required to have a device with a functional webcam and microphone. In an emergency, students can connect through a telephone call, but video connection is the expected norm.

Course Materials and Student Privacy:

- All course materials posted to Blackboard or other course site are private; by federal law, any materials that identify specific students (via their name, voice, or image) must not be shared with anyone not enrolled in this class.
- Video recordings of class meetings that include audio or visual information from other students are private and must not be shared.
- Live Video Conference Meetings (e.g. Collaborate or Zoom) that include audio or visual information from other students must be viewed privately and not shared with others in your household.
- Some/All of your CEHD synchronous class meetings may be recorded by your instructor to provide necessary information for students in this class. Recordings will be stored on Blackboard [or another secure site] and will only be accessible to students taking this course during this semester.

Testing with LockDown Browser:

CEHD courses may require the use of LockDown Browser and a webcam for online exams. The webcam can be built into your computer (internal webcam) or can be the type of webcam that plugs in with a USB cable (external webcam). Information on installing and using LockDown Browser may be found here.

You will need the following system requirements for online exams:

- Windows: 10, 8, 7
- Mac: OS X 10.10 or higher
- iOS: 10.0+ (iPad only)
- Must have a compatible LMS integration
- Web camera (internal or external) & microphone
- A reliable internet connection
- Prior to your first exam, you must install LockDown Browser following the step-by-step instructions linked above.

To ensure LockDown Browser and the webcam are set up properly, do the following:

- Start LockDown Browser, log into Blackboard and select your course.
- Locate and select the Help Center button on the LockDown Browser toolbar.
- Run the Webcam Check and, if necessary, resolve any issues or permissions your computer prompts.
- Run the System & Network Check. If a problem is indicated, see if a solution is provided in the Knowledge Base. Further troubleshooting is available through the ITS Support Center.
- Exit the Help Center and locate the practice quiz.
- Upon completing and submitting the practice quiz, exit LockDown Browser.

When taking an online exam that requires LockDown Browser and a webcam, remember the following guidelines:

- Ensure you're in a location where you won't be interrupted.
- Turn off all other devices (e.g. tablets, phones, second computers) and place them outside of your reach.
- Clear your desk of all external materials not permitted — books, papers, phones, other devices.
- Before starting the test, know how much time is available for it, and that you've allotted sufficient time to complete it.
- Remain at your computer for the duration of the test. Make sure that your computer is plugged into a power source, or that battery is fully-charged.
- If the computer or networking environment is different than what was used previously with the Webcam Check and System & Network Check in LockDown Browser, run the checks again prior to starting the test.

To produce a good webcam video, do the following:

- Do not wear a baseball cap or hat with a brim that obscures your face.
- Ensure your computer or tablet is on a firm surface (a desk or table). Do NOT have the computer on your lap, a bed, or any other surface where the device (or you) are likely to move.
- If using a built-in (internal) webcam, avoid tilting the screen after the webcam setup is complete.
- Take the exam in a well-lit room and avoid backlighting, such as sitting with your back to a window.
- Remember that LockDown Browser will prevent you from accessing other websites or applications; you will be unable to exit the test until all questions are completed and submitted.
